GuardX Privacy Policy

1. GuardX does not collect any information from you.
2. All features of GuardX do not use the network, all your data is stored locally.
3. The account password and other information you enter will be encrypted by AES256.
4. The 4-digit opening password you set will be obfuscated by SHA256. This means that your plaintext information in GuardX cannot be obtained by anyone but you.
5. If you have any questions, you can contact us at llli0vv0@gmail.com.
